

PortWatch Logistics, LLC is a third-party resource providing clients with more efficiency and greater productivity in their freight handling operations.

PortWatch set itself apart from competitors with Performance Paid Services versus a time based fee or cost plus structure.

The company's mission is to assist clients in achieving their operational and financial goals by reducing labor costs, improving warehouse productivity and eliminating risk through innovative freight handling programs and value added services.

PortWatch is prepared to conduct a survey of your needs, then follow up with a realistic appraisal comparing our Performance Paid Services with your current system.

Our singular goal is to be a true business partner to our clients and bring not only the finest freight handling services available, but also extensive insight into overall warehouse and distribution management. PortWatch is the solution to your freight handling needs, and we are saving money for our clients every day.
